General Comments: **Good group of one iron, ranch raised bred heifers. They were Preg tested March 2. Bred to Black Angus bulls with low birth weights. Bull went in June 26 and came out August 26. These heifers are light fleshed and in their working clothes. They will be in excellent calving condition. They have never been on grain and they will be great producing cows long into the future. Due to scheduling conflicts, the heifers need to move as soon as possible.**
