Kimber has been a favorite of ours since birth. Her dam 157E has been a consistent producer over the years. 62K is deep ribbed long spined and has a fancy presence.

Pasture exposed to TIP 1J from April 8 to June 15.

Thackeray Land and Cattle

Lot 25 is scratched - Substitute Lot 25a

Yes!! Any cattleman would be thrilled to sell a liner load of calves, that look like Lady Darla. He would be even more excited to tell a crowd of people, that they were all raised by first calf heifers. Wade has stepped into the core of his replacement heifer pen to bring you some great Gelbvieh genetics, at their best, in this young lady.. She is a long female, with a strong top line. Lady Darla should become a good brood cow, that has plenty of natural meat and doing ability. Her pedigree comes from many years of selecting meaty bulls and solid females, in Wade's program. Make sure to look her up on Sale day!
