WHITESTONE
LLB MISS MORRISON 983L

CROOKED CREEK MS MORRISON 31C

Behind every good herd bull is a mother who can stand along and carry attributes that progress forward. Hi Gears dam weaned him off at over 900 lbs at 190 days as a first calf heifer. The hype and buzz around Hi Gear has been noticed nationwide for his massive body, character and of course pedigree. Miss Morrison 983L topped the 2024 LLB Spring sale to us and was noted for being the best Whitestone daughter available. The production of Hi Gear is simply just her beginning. So with requests to access her genetic merit we have decided to offer an addition to the sale of 3 IVF embryos by the \$185,000 Hi Country to be full sibling eggs to Hi Gear.

Consigned by River Valley Cattle Co.

FULL SIBLING - HI GEAR
