

COMMERCIAL BRED HEIFER SALE

Silvertip Land & Cattle is delighted to offer over 80 commercial bred heifers and 10 first calf cow pairs for sale by auction on

SATURDAY, OCTOBER 19, 2024

in the great town of St. George at 322 Burt Road. All these exceptional heifers and second calvers have been bred to only purebred bulls handpicked for calving ease and predictable F1 calves. All cattle will be pregnancy checked, fully vaccinated and wormed by Metzger Veterinary Services. Available cattle include Black, BWF, and Baldy heifers, as well as solid red heifers bred to red Angus easy calving bulls from U2, Moose Creek Red Angus, and Charolais bulls from the famous Sparrow Ranch in Saskatchewan.

These are strong low-maintenance heifers that enjoy being outside, and they will certainly mature into great momma cows producing premium cattle that Ontario wants in their feedlots.

Come early on sale day to stroll through our pens and write down the numbers of your favourite selections. These cattle will be sold in groups of two and three so all buyers can participate. With refreshments, snacks and music, this sale promises to be a great way to spend your Saturday night!

If you're unable to attend, DLMS marketing will be broadcasting this event live with auctioneer Col. Ryan Dorran on site.
