Heifer Showcase & Sale

Wednesday, April 15th, 2026

FEATURING ALL BREEDS OF HOME RAISED, 1-IRON BREEDING HEIFERS FROM SOME OF THE TOP COW HERDS IN CANADA!

All heifers are home raised and palpated for breeding soundness. Palpating was done at home with a vet letter accompanying the cattle or arrangements were made to have the heifers palpated at the market.

The sale will begin with the Grand Champion & Reserve Champion pens of heifers followed by the remaining top 10 show pen entries, then the balance of the show pens.

Following this, we will sell the balance of the packages of cattle that the pens of 5 were sorted from!

JUDGES:

SHAWN WILSON - SW CATTLE (LEROSS, SK)

DEREK DEAN - DEAN RANCH (MAPLE CREEK, SK)

CURT CHICKOSKI - MARTEN RANCH (SWIFT CURRENT, SK)

HUGH LORING FAMILY DONATION HEIFER FUNDRAISER

On behalf of several 2025 CPRA steer Riders, Luke Moorhead is generously donating a heifer to be auctioned in support of their fellow steer rider and friend, Tanner Loring. The Loring family recently faced a devastating loss with the passing of Hugh Loring – Tanner's father, who was tragically killed while helping a motorist.

This donation is a small way to stand beside Tanner and his family during such a difficult time, and show the support and strength of the rodeo community.

The heifer Luke has chosen comes from his purebred Hereford program and comes with special meaning. She is out of a heifer he purchased from Donnie Gillespie using funds from the Arnal Brothers Bursary he was honored to receive.

Luke proudly showed this heifer's dam in 4-H, where she went on to be named Grand Champion Heifer in his club.

The memories and good times these boys shared on the rodeo trail in the summer of 2025 will be remembered forever. Competing against and cheering each other on at all Canadian Pro Rodeos throughout the season gave these young men a group of friends for life. Graduating to junior bull riding and other events, these boys keep in touch and follow each other's progress. The loss of Hugh has touched these kids as well – knowing him not only as Tanner's dad, but as a presence behind the chutes, and a man that they could all shoot the breeze with after the riding was done.

**HEIFER
WEIGHT:
925 LBS**

**All proceeds from the sale of
this heifer will go to Shelly,
Brandon and Tanner Loring.**

2025 Steer Riders – Luke Moorhead, Cecil Baynton, Dayton Cronkhite, Jason Wills, Jack Emerson, Rex Curtis, Ridge Flundra, Ryder Topolinski, Ethan McPhee, Jax Torkelson, Koaltyn Ogilvie, Taros Thomson, Riley Baird, Dason Big Plume, Stetson Hallaby, Hayes Howe, Gunner Armstrong, Jaxon Victoria.

CONSIGNOR INFORMATION

7R RANCH (BATTLEFORD, SK)

These are home raised, one-iron heifers born in April from the top end sort of our replacements. They were vaccinated at branding and weaning with Bovi-Shield One Shot and Ultrabac 7 and have never received implants. Since weaning they have been on a corn silage, hay, barley and mineral TMR.

76 RANCH - SHAY & SHARMON WILSON (PIAPOT, SK)

76 Ranch has a long history of raising top quality Black Cattle for many years. Here is a set of homegrown Black Angus heifers that have lots of length, tons of hair, that will turn into a solid set of momma cows with calves that will top the market year after year. They have been on a light corn silage ration, cut feed, DDG, and a mineral pack to keep the growing. Full herd health program since birth don't miss out on this opportunity to own a set of heifers from the 76 Ranch.

ALLEMAND RANCHES (SHAUNAVON, SK)

Here is an excellent opportunity to step into a fancy set of Red Baldie and Black Baldie heifers from the Allemand family! This is a true F1 Hereford X set of heifers right from the top end of their 250 replacement heifers! You'll drive the wheels off a pickup trying to find this kind of quality of F1 Hereford X heifers. They are sired by top end Braun and Brost horned Hereford bulls! They have Merck Vista, Vision 8, Safe Guard and ivomec at branding and weaning.

BAR C RANCH - CLAY & MELVIN MOORHEAD (MAPLE CREEK, SK)

Offering an outstanding set of elite heifers from Bar C Ranch. Clay and Melvin Moorhead are proud of this exceptional group of females — and with what they have on offer today, it is easy to see why. In 2020 Bar C Ranch was honored as Commercial Producer of the Year. The Moorhead's take pride in raising high-quality, high-producing females built to perform with minimal inputs. All replacement heifers are backgrounded on a silage-based ration along with screening pellets to ensure proper development and longevity in the herd. Calves are vaccinated at branding and again at weaning with Pyramid 5 with Presponse and 7 way. Prior to sale day, all heifers have been palpated and have received pre-breeding vaccinations to ensure they are ready to go to work for their new owner. For the past 15

Heifer Showcase & Sale

Wednesday, April 15th, 2026

years, the majority of the herd bulls have been carefully selected from the Short Grass Bull & Female Sale, adding consistency and proven genetics to this offering. Don't miss this opportunity to add dependable, productive females to your program.

BEAR CREEK ANGUS - BRENT/JACKIE & CHAD/NIKKI WEISS (MAPLE CREEK, SK)

Fancy home raised one iron black angus replacement heifers from the Weiss family who operate Bear Creek Angus. Born in April and May. They've received Vista Once SQ and Fermicon 7/Somnugen as calves and were boosted in fall. Backgrounded on rye silage, cut feed and a modest ration of mill run pellets setting them up for longevity. We are very passionate about quality angus females that work for years hassle free while raising high performing calves.

BOSSENCE FARMS (MORTLACH, SK)

Here is one of the elite Red Angus programs in Saskatchewan! The Bossence Family is a 3rd Generation Ranch in the Mortlach area and have a tremendous reputation for producing some of the best red cattle in the country! This 500 cow operation utilizes high powered bulls from Highline Angus and Wood Coulee! You are getting the top sort of these April born red hided replacement females!

CRIMSON CATTLE COMPANY - CHRIS & DEB SCHNEIDER (BURSTALL, SK)

Crimson Cattle Co is a family run operation raising predominantly solid red cattle. The Red Angus X Simmental cow herd is bred to top end bulls sourced from EDN Simmentals! The focus is on producing high performance calves that thrive with excellent maternal traits!

These Top Cut, Home Raised, 1-Iron heifers are all April born in the first 21 days of calving so you are getting the finest of fertile females! They are on a full herd health program, receiving Pyramid FP5 + Presponse and Fermicon 7/Somnugen at branding. No implants. Both vaccines were boosted in the fall at weaning along with Ivomec. Since weaning, these heifers have been on a feed ration consisting of cereal silage, ground hay, whole oats and a supplement blend from Trouw Nutrition.

TYLER & TENILLE CRONKHITE (MAPLE CREEK, SK)

Home Raised One Iron Black Angus heifers from $\frac{3}{4}$ Red Angus, $\frac{1}{4}$ Simmental cross cows. Sired by 76 bulls, selected for maternal, milk, and performance traits. No black heifers are kept at home! COB ration fed at 6 pounds per day, along with free choice hay and mineral. Cows kept on Xpress herd health program. In spring/fall, heifers received Pyramid FP5, Presponse, Fermicon 7 as well as Ivomec at weaning. Heifers have been pail fed by our son since weaning and are gentle.

Heifer Showcase & Sale

Wednesday, April 15th, 2026

CYPRESS COLONY FARMS (MAPLE CREEK, SK)

Have a look at these Top End Black Angus X Simmental, Home Raised, 1-Iron heifers! The heifers are on a full herd health program, Express FP5 – VL5 and Tasvax 8 plus Ivomec. They have been nicely backgrounded of a light silage ration and mineral. Cypress Colony has paid attention to detail only selecting the best genetic for Maternal, Milk. These heifers have lots of growth and turn into great momma cows. We have sold these heifers in the Fall at the Money In the Bank Bred heifer sale and have consistently topped the market.

DELORME RANCH (ROBSART, SK)

The Delorme Family proudly consigns its 40th annual offering of black heifers to this inaugural sale. Home-raised heifers from our ranch have been placed with cow calf producers in British Columbia, Alberta, Saskatchewan, Manitoba, Quebec and Ontario, with many buyers being repeat. The replacement females we are offering are sired by either Black Angus Bulls or Black Simmental Bulls and out of straight Black Angus cows. These bulls are selected from our own purebred programs at South Shadow Angus and Boundary Angus and Simmental. Heifers designed to mature into top producers on range conditions and backed by generations of stacked black genetics that will fit the planned crossbreeding or straightbred programs of commercial cow/calf producers. Summered at mother's side on native short-grass. No creep/No implants. Wintered on a tub-ground ration of silage, dryland hay, greenfeed, mineral and salt. All on a full herd health program; twice vaccinated with Fermicon 7/Somnugen, Pyramid FP 5/Presponse and pesticide poured. Palpated at the ranch by Wagner Veterinary Service.

E&G RANCHING LTD

We run an Angus & Angus based cow here at E&G Ranching. The cows start calving first week of April with the calves being sired by Hawkeye Ranching bulls. These calves are weaned the third week of October with the large one owner groups consistently weighing over 600 pounds! This is a low maintenance herd that really produces the pounds come fall. These heifers are NVB heifers that received Vista Once SQ and Vision 8 with Somnus in the spring as calves and boosted with the same at weaning. They also received Ivomec and Sabre in the fall. The heifers have also had their pre breeding vaccinations mid March and are ready for turnout! They were fed roughly 6 pounds of textured grain ration as well

Heifer Showcase & Sale

Wednesday, April 15th, 2026

as free choice grass hay. These heifers are right off the top of our program and will make excellent additions to anyone herd!

END OF THE TRAIL RANCH (ELROSE, SK)

The Moen family represents a proud fifth-generation mixed agricultural operation with deep roots in the industry. In 1990, my father made the strategic decision to separate from the diversified operation and focus exclusively on cattle production, establishing End of the Trail Ranch as a dedicated cattle enterprise, laying the foundation for the herd we continue to build today. In 2010, I established my own cow herd by purchasing replacement heifers from my father's program. These females were primarily Angus-influenced, with select Simmental genetics incorporated to add maternal strength and performance. The emphasis has always been on retaining quality females, a philosophy that continues to shape our breeding decisions. In 2017, I launched END OF THE TRAIL ANGUS, developing a purebred Angus herd dedicated to producing high-quality females and herd bulls for seedstock and commercial producers. Our commercial herd remains predominantly Angus-based, with some females tracing back to Simmental influence, maintaining a strong maternal foundation. In recent years, herd sires have been sourced from our own purebred program, as well as respected programs such as MJT Cattle Co and Walter Angus. These partnerships and home-raised genetics allow us to maintain consistency, predictability, and performance within our cow herd. Our program is built on disciplined selection and practical functionality. We cull heavily for udder quality, structural soundness, and temperament. In our challenging, dry environment, cows must be easy-fleshing, efficient, and capable of breeding back within a 60-day window. Fertility, longevity, and maternal reliability are non-negotiable traits. At End Of The Trail Ranch, we are committed to raising practical, functional cattle that work for the commercial cattleman—cattle designed to thrive under real-world conditions while maintaining the genetic integrity and consistency our customers can rely on. This particular set of heifers received Pyramid FP5 + Presponse - Fermicon 7 Somnugen as calves. In the spring they will receive Express 5 & Covexin_Plus.

GHOSTPINE RANCH (GRANUM, AB)

This is a feminine set of black hided females perfectly suited for replacements! The Ghostpine cow herd is run under range conditions up in the hills west of Granum AB and are well known and respected for being a highly maternal and powerful set of momma cows! These heifers are sired by W Sunrise Angus bulls and are on a full herd health. At palpation heifers received Bovi Shield Gold FP5 & VL5 and Ivermectin.

Heifer Showcase & Sale

Wednesday, April 15th, 2026

HAWKEYE RANCHING COMPANY LTD (TOMPKINS, SK)

Straight bred, Purebred Angus heifers out of our Purebred herd sires. These heifers are a part of our younger end born April/May and will make an excellent set of cows! They are summered in the Sand Hills north of Tompkins, and then weaned in the first part of October. They are fed roughly 6 lbs of textured grain, as well as free choice grass hay over the winter. Vaccinated with Vista Once SQ, and Vision 8 with Somnus as calves and boosted with the same at weaning along with Ivomec and Sabre Pour On. The heifers were then vaccinated with Bovi Shield Gold FP5 and Tasvax 8 mid March. Managed with their future in mind, this set of heifers will go out to become a fixture in someone's herd!

KC LIVESTOCK & PERFORMANCE HORSES (BRACKEN, SK)

If you're looking for a dependable, no-miss set of Angus females that will deliver year after year, have a look at these KC Livestock heifers! They are deep-bodied, easy keeping, and moderate framed, built to thrive in real-world conditions and stay productive for years to come. This is a uniform, functional group designed with longevity and maternal strength in mind. They come to town on a complete herd health program, including vaccinations at branding and full booster protocols at weaning, ensuring they're developed right and ready to go to work.

KLINT & CASSIE KORNFELD (VAL MARIE, SK)

Born on grass in May, these heifers come from solid ranch cows bred to Cowtrax and Sandy Bar Angus bulls. Raised in hard grass country, our cow herd is selected for longevity, strong maternal traits, and the ability to raise a consistent, even calf crop - and we choose our replacements accordingly. These heifers are on a full vaccination program including Pyramid Presponse and Fermicon 7 Somnugen, with boosters and Ivomec administered in the fall. Bred to become solid, dependable ranch cows, they would make a great addition to any herd

KORNFELD RANCHES (VAL MARIE, SK)

From a program built on generations of honest cattle, these Kornfeld Ranches heifers have all the functionality, longevity, and maternal strength you are looking for! Sired predominantly by Cowtrax Angus genetics, expect added performance, structural

Heifer Showcase & Sale

Wednesday, April 15th, 2026

correctness, and maternal predictability. These heifers are on a full vaccination program including Pyramid Presponse and Fermicon 7 Somnugen, with boosters and Ivomec administered in the fall.

LESHURES RANCH (SWIFT CURRENT, SK)

Leshures Ranch is in its fourth generation of cattle production. We started as a registered Hereford breeder before moving to commercial cattle in the early 80's. We've been a straight red herd for over twenty years, retaining all our own replacements. We only buy bulls from reputable registered breeders, including Jensen Red Angus, Wood Coulee Red Angus, Flying K Red Angus, and Lines Red Angus. We focus on maternal traits and strive to build well-structured, long-lasting mother cows. Heifers were born mid-April to mid-June. Given Bovi-Shield Gold One Shot and Vision 8 Somnus with Spur at branding. Weaned on October 22, where they were given the same shots as at branding. Ivomec'd mid-December. They were wintered on free-choice hay and silage bales put through a processor along a bunk, along with 5–7 lbs of pellets daily.

LINTHICUM RANCH - MURRAY & JAN LINTHICUM (GLENTWORTH, SK)

What an exciting offering from the Linthicum family! This is the top end of heifers right out of their Home Raised, 1-Iron replacement pen! The cow herd is on a full herd health program, including Bovi Shield Gold FP5 & VL5. These heifers received their vaccinations at branding, boosted in the fall on their mothers, and again at weaning. The heifers were on a backgrounding ration from October 10 to March 12 targeting 1.75-2 lbs/day. The heifers have been handled and are used to dogs! Get your choice of either straight black angus heifers or those highly sought after brockle faced AngusX Hereford heifers, or maybe buy them all and have one the fanciest sets of replacements around! These end of April/May born heifers are backed by a cowherd that has stood the test of time for generations.

LITTLE BUTTE RANCH - BLAIR & LEEANN, JESSICA & SHAWN, MILO, SADIE, CHRISTIE BROST (PIAPOT, SK)

Little Butte Ranch began in the late 1940's and is a generational ranch moving into the fifth generation! In 1974, the ranch put up the first automated Harvestore feeding system in Saskatchewan, which is still in operation to this day. After having purebred Charolais cattle, the ranch moved into a commercial herd that gradually became a cross of Angus and Simmental. Calving starts mid-January and out calves come off the cows in the fall with excellent weaning weights, including the first time calvers! Our herd's milk production is top

Heifer Showcase & Sale

Wednesday, April 15th, 2026

notch and their disposition for the majority of the cow herd is second to none! These heifers are sired by either Bircham or Neitz bulls, are all NVB (No Brands!), have been fully vaccinated and are ready to meet the bulls! So, if you are looking for low maintenance, high milk production and longevity make sure you have a look at these heifers on offer!

MFD CATTLE COMPANY - MARIO DORDU (SHAUNAVON, SK)

Here is an opportunity you won't want to miss, this is a chance to buy females from one of the fanciest sets of black angus commercial cows in western Canada. This cowherd is managed like purebreds! These straight black heifers are easy keeping, deep bodied feminine females that will become cows that will raise calves that push down the scale! They are on a full herd health program with Pyramid FP5 + Presponse & 7 Way Somnus at branding and boosted again at weaning. Cow herd is on the Express FP5 & VL5 program.

DEB & LUKE MOORHEAD (MAPLE CREEK, SK)

Deb and Luke Moorhead are proud to offer 5 hand-selected, exceptional brockle face heifers in this year's sale. This impressive group combines proven, performance-driven genetics from Braun Ranch, Gillespie Ranch and Bircham Ranch. Three years ago, Luke was honored with the Arnal Brothers Memorial Bursary. Since receiving the award, he has expanded his herd to include five purebred Hereford females and one purebred Hereford herd bull. Luke also owns some commercial Black Angus cows and breeds to his Hereford bull. Luke takes great pride in the Hereford and F1 herd he is building, with a strong focus on quality and longevity. For the past eight years, Deb has purchased bred heifers from the Bircham Ranch at the Elite Rock Solid Sale, developing a cow herd she is especially proud of — particularly her brockle face females. These heifers have been fully vaccinated with Pyramid 5 with Presponse and 7-way at branding and then again at weaning. Prior to sale day, all heifers have been palpated and have received their pre-breeding vaccinations. They have been carefully backgrounded on a silage-based ration and screening pellets to ensure they are well developed and ready to go to work. Don't miss this opportunity to add functional, eye-appealing and performance-oriented females to your program.

SAWLEY CATTLE LTD (FENWOOD, SK)

This is a fantastic set of Angus/Sim cross heifers from Dan & Jackie Sawley! The heifers are sired by bulls from Northernview Angus, Crescent Creek Angus and Anderson Cattle Co. The cow herd calves April 15-June 10. The steer calves were sold at Cowtown in December 2025 weighing an average on 200+ head of 644lbs. They are vaccinated with Bovishield

Heifer Showcase & Sale

Wednesday, April 15th, 2026

Gold One Shot and Ultrabac 7/Somubac at branding and boosted with Bovishield Gold One Shot and Ultrabac/ Somubac and also Safeguard and Biomection at weaning as well.

CODY & NORA SCHOCK (MAPLE CREEK, SK)

A fantastic set of heifers from the Schock family! These heifers are backed by generations of excellent angus cows and are the kind everybody loves to have in their herd. They will be sure to impress! The heifers are sired by bulls from South Shadow Angus (the Delormes) and Reid Angus. The cow herd calves April 20-June 10. The steer calves went to a longtime repeat buyer and weighed 585lbs net last fall! They are vaccinated with Inforce 3 and Ultrabac 7/Somubac at branding and boosted with Bovishield Gold and Ultrabac at weaning as well as Biomectin.

STONY HILLS RANCH (BRACKEN, SK)

What an excellent offering of straight black angus heifers this is from the Christianson family. These are the kind of heifer's people are after right from the top of their replacement pen. They are deep bodied, easy keeping, medium framed females that won't disappoint year after year. Sired by bulls that go back to SAV Resource 1441, Basin Rainmaker 4404, Wiwa Creek Angus, Thunder Creek Density 40Y. They are on a full herd health program with vaccines and branding and boosters at weaning.

TRAUTMAN CATTLE CO (LETHBRIDGE, AB)

Here is a feminine set of Home Raised, 1-Iron Black Angus heifers from the Trautman's! The Trautman cattle have been very well received in the past as bred heifers and here is the opportunity to breed them your way! Mike does a great job sourcing bulls that check all the boxes; performance, style, and excellent maternal qualities! Full Herd Health program since birth.

RANDY & KAREN WAGNER (CONSUL, SK)

These April/May born Charolais X Hereford tan-hided heifers have been selected right off the top as we are not keeping any tan heifers back in our herd for breeding in 2026. They received Bovilis Nasalgen 3 PMH and Vision 8 Somnus in spring 2025 at branding and then Vista Once SQ and Vision 8 Somnus at weaning in early November 2025 for

Heifer Showcase & Sale

Wednesday, April 15th, 2026

comprehensive coverage of BVD, IBR, PI3, BRSV, Pastuerella multocida, Mannheimia hemolytica, Haemophilus somnus (sleeper) and 8 clostridial strains. No implants have been given to any of these heifers making them excellent candidates for replacement females. The heifers have been backgrounded on a silage based ration since weaning targeting modest gains and setting them up for many productive years ahead.

WEISS CATTLE COMPANY - LANCE & COLE WEISS (MAPLE CREEK, SK)

These five red fancy, home-raised heifers represent a quality set of females that have been carefully developed with longevity and productivity in mind. They are sired by the proven Flying K Red Angus bull Hudson 13H, known for adding consistency, performance, and eye appeal, and are backed by strong Simmental dams that bring maternal strength, milking ability, and structural soundness to the package. Heifers are on the Pfizer Herd Health Program.

WEVER FARMS LTD (MAPLE CREEK, SK)

On offer from the Wever family is 10 head of the top end sort of their Home Raised 2025 Black Angus heifers! These heifers were born and raised just north of town in the Great Sandhills. May born calves, born on grass unassisted out of a powerful set of Angus ranch cows! We pride ourselves in striving for top genetics with both performance and maternal qualities to produce a kind of cattle that are functional and work. These straight black heifers are very growthy cattle coming from a very healthy environment. Full herd health program and mineral. We hope to showcase these in plans of bringing their bred sisters back in December. Thanks to Cowtown for hosting a fun event showcasing quality cattle. What a great time to be in this industry!

-Thank You-
