Out of Sale - 27 & 48

Both Black Gold and Greenwood have entered several of the females on offer in shows throughout the fall. We are willing to keep any of those sale females under our care and management throughout the fall free of charge. If the calves are left here, any winnings would be split 50/50 between the buyer and seller, and it would be our decision if the heifers attend or not. All we ask is that the cattle left under Black Gold or Greenwoods care are insured.
